

Metacrine to Present at H.C. Wainwright 2021 Global Life Sciences Conference

March 2, 2021

SAN DIEGO, March 02, 2021 (GLOBE NEWSWIRE) -- Metacrine, Inc. (Nasdaq: MTCR), a clinical-stage biopharmaceutical company focused on discovering and developing differentiated therapies for patients with liver and gastrointestinal diseases, today announced that Preston Klassen, M.D., MHS, president and chief executive officer of Metacrine, will present at the H.C. Wainwright 2021 Global Life Sciences Conference, being held March 9-10, 2021.

The presentation will be available to registered conference attendees for on-demand viewing beginning March 9, 2021 at 7:00 a.m. ET, and will also be available in the investor section of the company's website at www.metacrine.com. The webcast will be archived for 60 days following the presentation.

About Metacrine

Metacrine, Inc. (Nasdaq: MTCR) is a clinical-stage biopharmaceutical company building a differentiated pipeline of therapies to treat liver and gastrointestinal (GI) diseases. Metacrine has developed a proprietary farnesoid X receptor (FXR) platform utilizing a unique chemical scaffold, which has demonstrated a differentiated and improved therapeutic profile in clinical trials. The company's two product candidates, MET409 and MET642, are currently being investigated in clinical trials as potential new treatments for non-alcoholic steatohepatitis (NASH). MET409 has completed a 12-week monotherapy trial in patients with NASH and is being evaluated in a 12-week combination trial with empagliflozin in patients with both NASH and type 2 diabetes. MET642 has completed a 14-day Phase 1 trial in healthy volunteers and is being advanced into a 16-week monotherapy trial in patients with NASH.
